

PATLITE®

Flashing Beacon: GL7, GL7T
Rotating Beacon: GF7

Rugged, Outdoor Rated Warning Beacon For Use in Harsh Environments

Luminous Colors:

No.1 Global Share
in Signaling device
*2023, Global Info Research

www.patlite.com

Rugged & Outdoor Rated

Designed for Extreme Environments

Vibration Resistant

Dust Proof and Water Resistant

Vibration res. **110** m/s²

IP69K

Impact res. **1,000** m/s²

High-Temperature, High-Pressure Washable

Compliant with international standards, including EMC (ISO 13766-1) and environmental testing (ISO 16750).

Multiple flash patterns available to suit your application.

- Easily distinguish status through three-color LED and distinctive flash patterns.
- Clear differences in flash patterns ensure visibility and accessibility for users with color vision deficiency.

Series	Light Emission Direction	Wire Lead Controlled Model Flash Patterns	CAN Controlled Model Flash Patterns 4 Adjustable ★ Brightness Levels
Flashing Beacon GL7  12-24v DC 3-colors		Fixed Patterns <div><div>● Pulsing</div><div>● Double flash</div><div>● Triple flash</div><div>Low</div><div>Mid</div><div>High</div></div>	Configurable Patterns <div>Continuous</div> <div>Pulsing</div> <div>Single flash</div> <div>Double flash</div> <div>Triple flash</div> <div>Low</div> <div>Mid</div> <div>High</div>

2 Control Options Available

CAN Communication Control

- Compatible with SAE J1939: communication protocol. Ideal for construction machinery.
- Lighting patterns and four selectable brightness levels can be configured through communication control.

Wire Lead Control

- Non-communication type controlled with wire leads
- Distinct, fixed flash patterns per color help ensure visibility and support users with color vision deficiency.

Compact Warning Beacon

Space-saving Compact Design

Slim design requiring minimal installation space, ideal for use on compact construction machinery and forklifts.

Applications

Status indication for remotely operated

Overload prevention indication

Safety measures in logistics warehouses

Visual alerts in noisy environments

Easy Magnetic Mount

With the optional magnetic bracket, you can install the unit without drilling or making any modifications*, making it ideal for use with rental equipment.

*Compatible Models: GL7-M1N-T, GL7-T-M1N-T, GL7-M1N-Y, GF7-48N-Y
*When mounted with GL-001, the vibration resistance will be 45 m/s².

Option

Magnet Bracket
GL-001

Equipment pilot lamp

Outdoor equipment fault and status alerts

Specifications

Model		 GL7-M1NC1-T	 GL7T-M1NC1-T	 GL7-M1N-T	 GL7T-M1N-T	 GL7-M1N-Y	 GF7-48N-Y
Luminous color		3 colors (Red, Amber, Green)				1 color (Amber)	
Rated Voltage		12-24V DC					48V DC
Power consumption	Max.	4.6W				8.9W	5.8W
Mounting Location		Indoor/Outdoor (Construction equipment allowed)					
Mounting Direciton		Upright, Sideways, Inverted (Indoor only)					
Protection Rating		IP6X, IPX6 (IEC 60529), IPX9K (ISO 20653)					
	Environmental Condition	Upright / Sideways					
Vibration Resistance		110m/s ² (JIS D 1601:1995)					
Impact Resistance		1,000m/s ² 11ms (IEC 60068-2-27:2008)					
Communication Specification		CAN		—			
	Communication Protocol	SAE J1939		—			
Mass (Tolerance ±10%)		150g	140g	140g	130g	140g	140g

Model Code

Model Number	Series	Rated Voltage	Control Spec.	Luminous Color
	↓	↓	↓	↓
	GL7 Flashing Beacon	M1 12 - 24V DC	(blank) Voltage Control	T 3 Colors (Red, Amber, Green)
	GL7T Flashing Beacon (Slim)	48 48VDC	C1 CAN Communication(J1939)	Y Amber
	GF7 Rotating Beacon			

CAUTION

To ensure correct use of these products, read the "Instruction Manual" prior to use. Failure to follow all safeguards can result in fire, electric shock, or other accidents. Specifications are subject to change without notice.
